Dear Michael,

Thank you for participating in our annual event on March 15 and for supporting our project.

Your generous contribution will be used for teaching Personal Financial Management to young adults.

Most of our students are from weak populations and development towns, and we are giving them the tools to achieve a better financial future.

We are excited about our new facebook and mentoring project and invite you to join us on our page.

We hope to continue to work together to promote personal financial stability in Israel, and prevent debt and poverty in the next generation.

Best wishes,

A handwritten signature in blue ink that reads 'Mindy Ajzner'.
